Subject: RE: list of OB/OD sites from EPA intern files

Hi Terri,

I reviewed the 3 sites in Region1 listed in the OB/OD spreadsheet:

1. Joint Base Cape Cod may be the MMR Superfund site (No EPA ID number provided in spreadsheet).
2. Fort Devons: Sudbury Training Annex, MAD980520670 – could not find any info for this site in RCRARep. The ID number does not pop up when searching in RCRARep.
3. New England Ordnance, NHD981204282 - RCRARep indicates that the permitted OB unit was never constructed nor operated (7/1/05 NH Inspection). Mfg operation at the site ceased operation in Fall 1999.

If you have any questions, please let me know.

Stephen

Subject: FW: list of OB/OD sites from EPA intern files

Besides the information below (see the highlighted information wanted from the contractor), we are also looking for the Subpart X Workgroup to assist with identifying:

- Which of the sites listed in the attached spreadsheet have enough data to document the costs associated with OB/OD units?

If any changes need to be made in the spreadsheet, please let me know and I will grant you access to the master spreadsheet so that everything can be maintained in one document or please identify the changes clearly so that I can make them.

If you have any questions, just give me a call.....Thanks! Terri

Subject: list of OB/OD sites from EPA intern files

Ken,
Attached for the Subpart X workgroup is the list of sites that I said I'd provide. This list contains the 270 sites in Jordan Moore's original files, plus some additional sites included on your recent list of DOD OB/OD disposal units by functional category. (Jordan's list had not included McAlester, Hill, Aberdeen, or Eglin.) The list is sorted by EPA Region and State and color-coded to help distinguish them. I'm hoping your workgroup members can quickly scan their regions/states to identify any additional sites we might be missing. Also, it would be helpful if the workgroup corrects the site names. (We are working to correct typos and inconsistencies from the original files as we populate the database.)

Also just a heads up: Cross checking your DOD list with our database raised a couple of other issues with site names that maybe you can provide insight on:

1) The DOD list included **Deseret Chemical Depot**, which was not on Jordan's list. I believe it is the same as **Tooele Army Depot**. Can you confirm?

2) The DOD list includes both **NSWC Indian Head** and **NSWC EODTECHDIV**, which I'm guessing (until I research further) are different OB/OD units on the same property. Only NSWC Indian Head was included on Jordan's list. Should we add NSWC EODTECHDIV as another site?

We will work to populate the database so your workgroup can see which information we still need.

Let me know if you have any questions on this attachment.

Regards,
Diane
